2 Day Residential Vinyl / LVT

Class Size: 8 — \$199 OVF dealers / \$250 non-OVF dealers

This class teaches the installation procedures for all Armstrong residential vinyl products and LVT products from Armstrong, Metroflor/Konecto and FreeFit. The new products have different installation procedures, so the latest techniques will be a big part of this class. We'll cover installation of sheet goods, Alterna and Luxe, plus subfloor prep, repairs, and custom applications such as borders, insets, tile and plank designs.

3 Day Commercial Vinyl

Class Size: 8 — \$299 OVF dealers / \$350 non-OVF dealers

This class will cover all of the Armstrong commercial vinyl installations systems, which are essential whether you're new to commercial installations or a seasoned installer who would like a refresher course. Over three days, each participant will complete pattern scribing, straight scribing, flash cove and heat welding— techniques in which you must demonstrate proficiency to later become a Certified Armstrong Commercial Vinyl Installer.

2 Day Prefinished Wood

Class Size: 8 — \$199 OVF dealers / \$250 non-OVF dealers

This hands-on class covers all of the basics of prefinished wood installations. This includes product knowledge, the procedures for nail down, glue down and floating wood floor installations, as well as a review of proper jobsite conditions, floor prep and repair.

1 Day CustomTech Training

Class Size: 8 — \$99 OVF dealers / \$150 non-OVF dealers
